

PCI DSS v4.0.1

CERTIFICATE OF COMPLIANCE

Level 1 Service Provider

Awarded to

Twiskey

This is to certify that Twiskey has been assessed by 247 CyberLabs and was found to be compliant with the requirements of PCI DSS v4.0.1.

247 CyberLabs has issued this certificate to indicate that the aforementioned company's cardholder data environment has been assessed against the PCI DSS as of the date of validation below. This certificate is subject to validation conditions as laid out within the PCI SSC Certification Program. This certificate shall not warrant nor guarantee to any third party that the company's cardholder data environment is invulnerable to attack or compromise. Accordingly, in no event shall 247 CyberLabs be liable to any third party in the event of loss or damage caused by any failure or breach to the company's systems or payment applications. 247 CyberLabs makes no warranties or representations regarding the security or vulnerability of the company's systems or applications.

Validation date:

4th Feb 2026

Laurent Benameur-Sauvaire
Founder and CEO, 247 CyberLabs Ltd.
