Isabel Connect User linking

User linking process

In the first step of the user linking process, Twikey redirects the user to Isabel. Isabel must then authenticate the user by means of their Isabel 6 smartcard.

Once authenticated, the user must subscribe to the Isabel Connect module by signing with their Isabel 6 smartcard

User linking process

The user then gives consent to Isabel 6 to authorize the sharing of his available bank account data with Twikey

Please give your consent to link your application

isabel
connect

Your software will be linked to Isabel 6.

✓ I hereby provide my specific consent to

✓ request account information

✓ initiate payments

on my behalf in the frame of Isabel Connect.

This consent can be updated or withdrawn at any time via the Isabel 6 homepage.

✓ I explicitly undertake and warrant that I am fully empowered to provide such consent.

Click on "Confirm" to be redirected to your software

CANCEL

User linking process

At the end of the process, the user is redirected to Twikey.

Remark: Through the user linking application screen in Isabel 6, the user can view that Twikey has been correctly connected with his corresponding Isabel 6 user:
